Chapter 1

table of contents

1.1 basic types

- os
- string

Chapter 2

Class Index

2.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

file_handler	7
list_handler	7
memory_info_data	8
pointer	8
stack_element	9
stack_handler	9
string_reference	10
type_methods_definitions	10
vm	10
vm_data	11
vm_data_enumerator	11
vm_pointer	12
vm_state	13
vm_types	13

Chapter 3

File Index

3.1 File List

Here is a list of all documented files with brief descriptions:

src/std/ api.h	15
src/std/ compile.h	16
src/std/ data.h	16
src/std/ errors.h	17
src/std/ headers.h	18
src/std/ macros.h	18
src/std/ time.h	19
src/std/ version.h	20
src/sys/info/ info_v1.h	20
src/sys/list/ list_v1.h	
C API / list	20
src/sys/memory/ memory_v1.h	22
src/sys/options/ options_v1.h	23
src/sys/os/ os_v1.h	
C API / os	23
src/vm/v1/pointer/ pointer_v1.h	
C API / pointer	25
src/vm/v1/types/data/ data_v1.h	
C API / data	26
src/vm/v1/types/file/ file_v1.h	
C API / file	28
src/vm/v1/types/object/ object_v1.h	
C API / object	30
src/vm/v1/types/stack/ stack_v1.h	31
src/vm/v1/types/string/ string_v1.h	
C API / string	32
src/vm/v1/types/string_pointer/ string_pointer_v1.h	
C API / string pointer	34
src/vm/v1/types/user/ user_v1.h	
C API / user	35
src/vm/v1/virtual/ virtual_v1.h	36

Chapter 4

Class Documentation

4.1 file_handler Struct Reference

Public Attributes

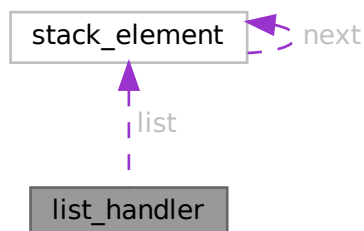

- FILE * **file**

The documentation for this struct was generated from the following files:

- src/vm/v1/pointer/pointer_v1.c
- src/vm/v1/types/file/file_v1.c

4.2 list_handler Struct Reference

Collaboration diagram for list_handler:

Public Attributes

- [stack_ptr](#) list

The documentation for this struct was generated from the following files:

- `src/vm/v1/pointer/pointer_v1.c`
- `src/vm/v1/types/string/string_v1.c`

4.3 memory_info_data Struct Reference**Public Attributes**

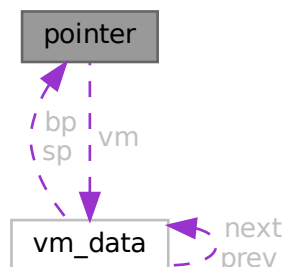

- u64 **alloc**
- u64 **used**
- u64 **free**

The documentation for this struct was generated from the following file:

- `src/sys/memory/memory_v1.c`

4.4 pointer Struct Reference

Collaboration diagram for pointer:

**Public Attributes**

- struct [vm_data](#) * **vm**
- void * **data**
- u64 **size**
- u64 **address**
- u64 **id**

The documentation for this struct was generated from the following file:

- `src/vm/v1/pointer/pointer_v1.c`

4.5 `stack_element` Struct Reference

Collaboration diagram for `stack_element`:

Public Attributes

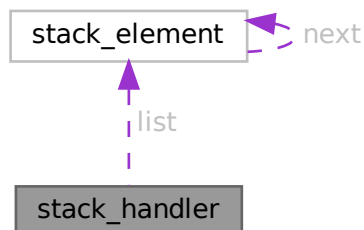

- [stack_ptr](#) `next`
- `void *` `data`

The documentation for this struct was generated from the following file:

- `src/std/data.h`

4.6 `stack_handler` Struct Reference

Collaboration diagram for `stack_handler`:

Public Attributes

- `u64` `size`
- [stack_ptr](#) `list`

The documentation for this struct was generated from the following file:

- `src/vm/v1/types/stack/stack_v1.c`

4.7 string_reference Struct Reference

Public Attributes

- u64 **address**
- u64 **offset**

The documentation for this struct was generated from the following file:

- src/vm/v1/types/string/string_v1.c

4.8 type_methods_definitions Struct Reference

Public Attributes

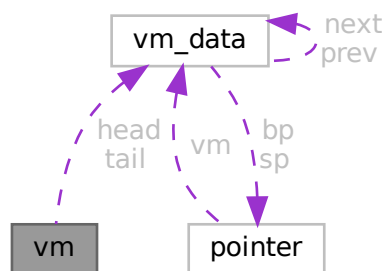

- void(* **free**)(pointer_ptr ptr)

The documentation for this struct was generated from the following file:

- src/std/data.h

4.9 vm Struct Reference

Collaboration diagram for vm:

Public Attributes

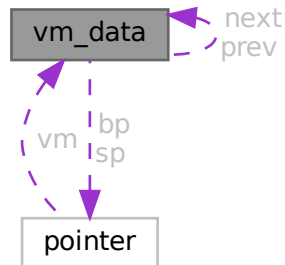

- struct `vm_data` * **head**
- struct `vm_data` * **tail**

The documentation for this struct was generated from the following file:

- src/vm/v1/virtual/virtual_v1.c

4.10 vm_data Struct Reference

Collaboration diagram for vm_data:

Public Attributes

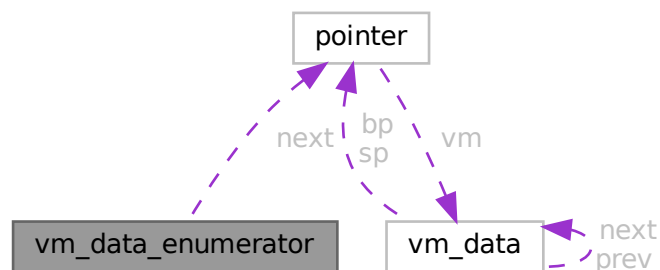

- `pointer_ptr * sp`
- `pointer_ptr * bp`
- `struct vm_data * prev`
- `struct vm_data * next`
- `u64 offset`
- `u64 size`

The documentation for this struct was generated from the following file:

- `src/vm/v1/virtual/virtual_v1.c`

4.11 vm_data_enumerator Struct Reference

Collaboration diagram for vm_data_enumerator:

Public Attributes

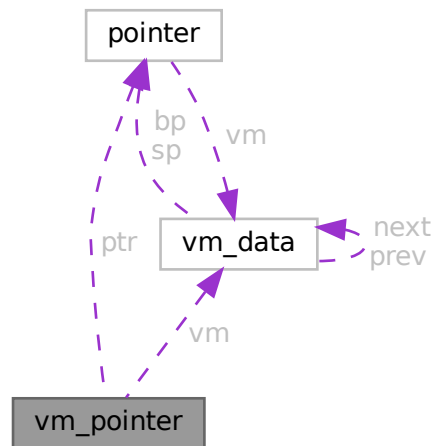

- `pointer_ptr(* next)(void)`

The documentation for this struct was generated from the following file:

- `src/vm/v1/virtual/virtual_v1.c`

4.12 vm_pointer Struct Reference

Collaboration diagram for vm_pointer:

Public Attributes

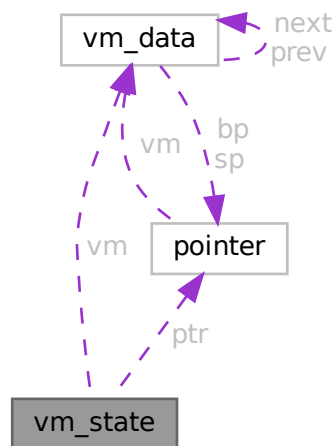

- `pointer_ptr * ptr`
- `struct vm_data * vm`

The documentation for this struct was generated from the following file:

- `src/vm/v1/virtual/virtual_v1.c`

4.13 vm_state Struct Reference

Collaboration diagram for vm_state:

Public Attributes

- struct `vm_data` * `vm`
- `pointer_ptr` * `ptr`

The documentation for this struct was generated from the following file:

- `src/vm/v1/virtual/virtual_v1.c`

4.14 vm_types Struct Reference

Collaboration diagram for vm_types:

Public Attributes

- struct [vm_types](#) * **next**
- u64 **id**
- void(* **free**)(pointer_ptr ptr)

The documentation for this struct was generated from the following file:

- src/vm/v1/pointer/pointer_v1.c

Chapter 5

File Documentation
